Subject: Chemours - Additional Rain Samples

Michael –

We have received additional rain sample results today, July 2, 2018. The results for 5/24/18 and 5/28/18 were previously sent by Mike Johnson. I am repeating here due to format and consistency on how rain data had previously been sent to you.

A = west of River Water Intake, which is located NE of the operating areas;

B = solar field, which is located SE of the operating areas;

C = south gate, which is located south of the operating areas and the furthest point from the operating areas.

<u>Date- sample collection</u>	<u>Rain (ppt)</u>	<u>Location</u>
5/24/2018	< 10	River Intake -A
5/24/2018	< 10	Solar Field -B
5/24/2018	< 10	South Gate - C
5/28/2018	< 10	River Intake -A
5/28/2018	20	Solar Field -B
5/28/2018	< 10	South Gate - C
6/12/2018	< 10	River Intake -A
6/12/2018	< 10	Solar Field -B
6/12/2018	< 10	South Gate - C

Please let me know if you have any questions. I will send production data under separate CBI cover.

Thanks –
Christel
